Brush after 1 minute testing

Angled view showing missing tufts and broken bristle

WHICH BRUSH WILL SAVE YOU MONEY?

The above brush is currently being made in China and sold under several labels, including the Cocker-Weber label. This brush is being exported to the United States. Testing shows poor quality material and construction. The brush was unusable after 1 accelerated minute of wear. Compare any other brush to Cocker-Weber. Cocker-Weber brushes last longer, work harder and are more economical to use.

MADE IN AMERICA. AMERICAN QUALITY.

GENUINE COCKER-WEBER QUALITY

Brushes were spun at 10,000 RPM polishing a steel bar at 1 pound pressure.
